A MODEL TARIFF BILL.

A Senate Substitute that Will Give Entire Satisfaction

PREPARED BY REPUBLICANS.

Big Reduction in Revenue and Ever American Industry Protected.

Inequalities of the Present NEW YORK, August 1.-Robert P Porter, editor of the New York Press,

osed Senate substitute for the Mills bill:

If any doubt as to the intent existed the Mills bill is evidence that free trade is the ultimate goal of its framers. The free list of this iniquitous measure is only limited by the possibilities of passing the bill. Coal, iron ore, pig iron and a dozen other important industries were originally doomed, but finally had to be abandoned, as the idea of rending in twain the great wool and woolen into be abandoned, as the idea of remains in twain the great wool and woolen in-dustries by free wool commended itself to favor as a quicker and more practical method to bring about disintegration and ultimate destruction to the pro-tection average.

A close examination of the Mills bill does not disclose a single clause favorable to protection. There is no harmony, no attempt to improve or able to protection. There is no harmony, no attempt to improve or strengthen the present law, no attempt to correct inequalities. To pass such a bill would be destructive to every principle of Protection. Such is the bill that has come over from the House and is now under consideration by the Finance Committee of the Senate. Such, perhaps, I should say the majority of that committee after a careful examination find it to be. The aims and purposes for which this bill was prepared by Roger Q. Roger Q. Mills, a man utterly unfit by training, experience or education for such a task, are so radically opposed to sound legislation that even the framework of the Mills bill could not be used. To altar or patch such a bill would be impossible, and would only end in confusion and perhaps in the passage of a measure injurious to the business interests and ruinous to labor.

Three months ago the Senate was able to forecast this bill, and after several conferences it was almost unanimously decided that while the Republicans in the House, being in the minority, were

decided that while the Republicans in the House, being in the minority, were not responsible for tariff legislation, the Senate, having a Republican majority, was responsible for some legislation look-ing toward a reduction of the surplus. A PERFECT BULL.

Then it was determined that a bill must be prepared. A consistently Pro-tective bill. A bill that would be

Another visitor was Postmaster Hall, of Marion, who is a Republican, and of whom it is said that Mrs. Cleveland has made such a conquest that she has converted him to the Democracy. At all events, he has put out a large lithograph of the President in front of his office, which loyal Republicans might think out of place were it not for the presence of Mrs. Cleveland in their midst.

Mrs. Cleveland started for Washington to-day by a special train from Fall River.

OUT ON THE PACIFIC COAST

Chinese Meetings-Hu Maxwell Tells How the Matter is Worked in California.

FRESNO, CAL., July 25 .- I have just en making a tour over a portion of California, and I have paid some attenion to the drift of politics here. I am almost persuaded that the Democrats of California are too sharp for their Republican brethren. This is seen to the best advantage in the capital which they make of Harrison's Chinese record. There are many Chinese here, and the Democrats are doing missionary work among them, and tell them that if Harrison is elected all the Chinese can vote and will be as good as anybody else. This the Chinese believe, and are ever ready to cheer for Harrison; and this is just what the Democrats want them to the To got the Chinese to support the almost persuaded that the Democrats of Washington, August 1.—The minority report of the Senate Judiciary Committee on the Jackson, Miss., political riots, was submitted by Senator Pugh to the Senate to-day.

"It is not shown," the minority says, "that any one of the federal officers incriminated by the committee did a single illegal act or aided or advised in the doing of such."

A GOVERNMENT DEFALCATION.

A Clerk Loans Money to Department officials and it is Not Returned.

Washington, D. C., August 1.—Just after Disbursing Clerk Bacon, of the Interior Department, died his accounts were found to be in a very bad condition. An examination showed that he owed the Government many thousand dollars and it was also ascertained that the money had been loaned by Bacon to officials in the Interior Department as a matter of accommodation. Some of the parties who received this money stand very high in the present Administration and more than one have been promoted, notwithstanding the President had all the facts before him at the time. There never was a charge that Bacon had approporpiated a single dollar to his own use, it has not been done. They know well enough that the Chinese are doing

AN INJURY TO THE PARTY, but they have, not as yet exposed the fact that it is the Democrats who are used.

I have thought it perhaps worth while to write of this, as the papers of the east don't generally understand that the Chinese on the Pacific coast are tryed on by Democrats to support the Republican cause. It is well known that the Republican party must suffer from this very support. Democratic promet support. Democratic prom say. One thing in particular that is calculated to hurt the Republicans, the Chinese are prompted to say on every occasion, and it is this: "Chinaman good as Irishman, and Hallison make us all the same." This the Democrats tell them, and then make a great ado over it. It has been a matter of surprise to me that the Republican papers have not exposed this trick of the Democrats. But, so far as I have seen, it has not been done. They know well enough that the Chinese are doing

AN INJURY TO THE PARTY,
but they have, not as yet exposed the fact that it is the Democrats who are urging the Mongolians on in their work. I am not sure but that there is an element at work which is going to surprise ment at work which is going

A loud yell came from the White House that the Government would not suffer, as Bacon's bondsmen were amply able to make up the difficiency. Some people here are cruel enough to a not sure but that there is an elea at work which is going to surprise of the local Democratic politicians assection of California. HIGH LICENSE AND LOCAL OPTION. he New Jersey Law is Declared Coust

tional by the Court of Appeals.

TRENTON, N. J., August 1.—The de ision of the Court of Appeals, declaring the high license local option law onstitutional, is elaborate and argumentative. The high license feature of the law was declared valid by a unan mous vote, but the court was divided on the local option feature, the vote standing eight to seven on constitutionality. Justice Van Sickel read the opinion of the majority of the court. He first discussed the question whether the law was prohibitory or regulatory. He contended that the title was perfect and explained the full object of the law. Said he: "Assuming that the extreme effect of this legislation is to forbid the sale by small measure, in my judgment it must be regarded as a law regulating the sale of intoxicating and brewed liquors. Every license law is to some extent a prohibitory law. It prohibits ous vote, but the court was divided

cussed in regard to the mode of trial and the penalty prescribed for the violation of this law are not necessarily involved in the case before the court. It is suffiin the case before the court. It is suffi-cient to say that the provision in this regard may be eliminated from the act without destroying its validity." In discussing the local option branch of the law the court thought it pointed to re-mark that there was no express pro-visious in the constitution that legisla-tive power should not be delegated. The opinion declares the law unques-tionally a general law, and is conclu-tionally a general law, and is conclutionably a general law, and in conclu-sion declares valid and constitutional that part of the act which relates to the

A. of New York. They are to be shipped to London, England. Dullness in the English Cloth Market.

Duliness in the English Cloth Market.

MANCHESTER, August 1.—The Guardian, in its commercial article to-day, says: The appearance of the market is subdued. Large transactions are infrequent. Still, traders are not idle, and a moderate business is doing in most departments. The position of producers varies greatly. Manufacturers of well known Eastern staples are much better supplied with orders than others. The

demand for India, especially for Calcutta and Madras, is well maintained, but the offers for light and fancy cloths are often impracticable. The sales of shirtings have been fair. China merchants have done little. There is a quiet but steady demand for the lesser for-eign markets. Home houses are buy-ing cautiously. The inquiry for export yarn is moderate. The continental de-mand is especially slow. The demand for home consumption is also light. EXCITING IRISH EVICTION. for home consumption is also light. Steadiness prevails throughout the East-Steadiness prevails throughout the Eastern departments. In the cloth market several makes of shirtings have been sold in moderate quantities for India. There have been some important inquiries for jaconets and dhooties, though the offers were often too low. Printing cloth is dull, but some sellers have made better progress. Prices are low and sometimes irregular. Colored goods are neglected, There is a quiet demand for heavy goods. Sellers find difficulty in securing orders in quantity, except at lower rates, and those they will not accept.

fears that she will die of inanition, as
she positively refuses nourishment.

THE LAW DEFIED IN ALABAMA.

Vigilantes Watching a Coal Mine in Which Moonshiners take Refuge. BIRMINGHAM, ALA., August 1.—A telhere to-day, gave mengre details of a bloody tragedy in Bibb county. For some time a gang of moonshiners have been operating around the coal mines and railroads camps in that neighbor-hood. They became so bold that they defied arrest, and the last United States posse of citizens determined to starve them to death if they would not come out and surrender. Monday night one of the moonshiners made a bold dash for liberty, but was shot at by the posse and fell dead. The rest of the gang are still
